##### Clarification Note:

Battle Area Clearance (BAC) and some of the Area Cancellation were primarily conducted during the early stages of the mine action programme, covering extensive areas following the cessation of hostilities. These activities were largely implemented by the Sri Lanka Army and contributed significantly to overall land release. However, BAC and cancellation areas are not directly comparable to mine clearance and area reduction, which address confirmed and suspected hazardous areas. To avoid double counting and percentage inconsistencies-particularly in light of the remaining 20.85 sq km of CHA and SHA-BAC and cancellation data are presented separately from mine clearance figures.
